Graham Reid

Network & Infrastructure Support

2nd-line · NOC · junior network

CONTACT

Paisley, Renfrewshire

graham.moshii.co.uk

linkedin.com/in/moshii

TECHNICAL SKILLS

Networking

TCP/IP, subnetting, VLAN segmentation, DHCP/DNS, PPPoE, Wi-Fi, PoE power budgeting, WireGuard VPN and split tunnelling

Hardware

Ubiquiti UniFi (UDM-Pro, UDR7, PoE switching, access points, Protect, Access), rack and patch-panel layout

Cabling

Cat6/Cat6A structured cabling, T568A/B termination, cable testing, commercial electrical installation

Systems and services

Docker and Docker Compose, Nginx Proxy Manager (reverse proxy, HTTPS), NAS administration

Business tools

Microsoft 365 tenant and user administration, SharePoint, advanced Excel reporting, AutoCAD

Development

Python, PHP, web applications, Git/GitHub

CERTIFICATIONS AND CHECKS

Cisco CCNA (passed during degree, now expired)

PVG Scheme member

First Response first aid (Scouts)

Full UK driving licence and private hire licence

PROFILE

Networking-trained infrastructure builder moving into IT and network engineering. I studied Computer Networking with Systems Support at Glasgow Caledonian University, passing the Cisco CCNA, and now design and run networks, self-hosted services and the Microsoft 365 tenant for a Scout district, as well as my own homelab, working with UniFi, Docker, VLANs and structured cabling. I bring 11 years of running my own business and board-level leadership as a charity trustee and District Lead Volunteer. I'm looking for a 2nd-line, NOC or junior network role with a clear path towards network engineering and architecture.

TECHNICAL PROJECTS

Scout HQ network and security design

Scouts · 2026

- Designed a rack-based UniFi network for District HQ: UDM-Pro gateway, 24-port PoE switch, patch panel and Cat6A F/UTP LSZH cabling, rated for 10 Gbps runs.
- Integrated five 4K cameras, two-door access control, and smoke, motion and entry sensors on one managed platform.
- Calculated a 250–300 W PoE load, sized the switching to match, and costed the build at about £4,640 ex VAT. Equipment ordered; installation to follow.

Compliance reporting platform

Scouts · current

- Run a Docker-containerised web app, adapted from an open-source base, that turns membership exports into compliance reports for 12 groups and units plus a district summary.
- Rebuilt the automated email logic so volunteers holding several roles get one accurate summary.
- Fixed template, formula and volume-mount faults; added job logging, data-retention clean-up and an input diagnostics page.

Homelab and self-hosted services

Personal · ongoing

- Run a UniFi network (UDR7 gateway, managed PoE switching, two access points) on 2.3 Gbps PPPoE full fibre, with IoT devices isolated on their own VLAN and SSID.
- Host web services and applications on a NAS with Docker Compose, published through Nginx Proxy Manager with HTTPS certificates.
- Route selected devices through a WireGuard VPN using split tunnelling, and manage remote access to services and desktops.

Web applications for Scouting

Scouts · 2026

- Build and maintain PHP and Python web applications, version-controlled on GitHub, including a King's Scout Award portal for tracking progress, logbooks, sign-offs and expedition planning.
- Built PAGGS Hub, a self-hosted registration and welfare-data system for a triennial twin-town camp. Also building the district website and a booking prototype for Lapwing Lodge.

EDUCATION

BSc Computer Networking with Systems Support

Glasgow Caledonian University

2007 – 2011

Three years completed; passed the Cisco CCNA alongside the course

BSc Architecture (K100)

Duncan of Jordanstone, University of Dundee

2005 – 2007

Gleniffer High School

1999 – 2005

Advanced Higher Art; Highers in English, Mathematics, Graphic Communication, Computing and Art

LEADERSHIP AND VOLUNTEERING

District Lead Volunteer and Trustee

c.2021 – present

Paisley & District Scouts · Trustee c.2021; DLV since Aug 2024

- Lead the district's volunteers and sit on the Trustee Board, sharing responsibility for governance, safeguarding compliance and finances.
- Introduced district-wide compliance enforcement: appointments approved only where everyone is compliant, and volunteers more than six months overdue suspended.
- Modernised board governance with a standard agenda, minutes, action tracker and decision log, plus a SharePoint-based Trustee Hub.
- Administer the district's Microsoft 365 tenant and user accounts, provide ad-hoc IT support to volunteers, and lead the rebuild of the district website.

Transport Coordinator

2026

Blair Atholl International Jamborette

- Coordinated coach transport for about 523 participants in 34 contingents from the UK and overseas.
- Reconciled bookings with two coach operators, cross-checked invoices and processed contingent change requests through a master workbook.
- Produced travel-flow diagrams, accommodation allocations and duty rotas for contingents and staff.

District Network Scout Commissioner

from c.2006

Paisley & District Scouts · previously Explorer Scout Leader

- Set up and led the district's Network section for 18–25 year olds, after running weekly Explorer programmes for 14–18 year olds. Organised overseas expeditions and camps.

EMPLOYMENT HISTORY

Self-employed Private Hire Driver

Feb 2015 – present

Renfrewshire Cab Company

- Run my own licensed business: scheduling, expenses, vehicle compliance and self-assessment.
- Over 11 years of reliable, customer-facing service under shift pressure.

Electrician's Mate

Mar 2014 – Nov 2014

SFEC (UK) Ltd

- Worked on jobs from minor alterations to full commercial rewires across local and national sites.

CAD Draughtsman

Aug 2012 – Jan 2014

Tec-Source EECS

- Produced electrical layout and termination drawings for two hybrid ferries built for Caledonian Maritime Assets.
- Revised drawings from engineers' feedback during construction, and compiled the final drawing packs and manuals for issue.

Earlier experience

2004 – 2015

Hospitality, including Head Trainer at Tusk, training new staff and setting service standards. Also office administration temping (Balfour Kilpatrick, Schenker, Farrer Consulting), an architectural placement at idPARTNERSHIP, and a stock room role at Currys.
